Farmers Markets

A farmers market is defined as a venue where multiple farmers come together to sell their products to the public. Dues for farmers markets as an entity are determined on a sliding scale based on the average total number of farmers and vendors that sell at the farmers market during peak season. The number should be determined from the previous year's farmer and vendor attendance.

| | | |
|--|-------|-------|
| 76 or more farmers and vendors | \$350 | _____ |
| 26 – 75 farmers and vendors | \$250 | _____ |
