## Farmers Market Food Safety Tips

- Wash hands before and after handling fresh produce.
- To clean thoroughly, rinse leeks well, using lots of cold, running water to remove any soil or grit found between the leaves.
- Use leeks immediately after washing. Do not trim or wash before storing.
- Wrap leeks in plastic when storing in the refrigerator, as other foods can absorb their odor.
- If purchased fresh, leeks will last up to 2 weeks in the refrigerator. After cooking, leeks should be kept in the refrigerator and used within 2 days.
