Using Your Market Card

1. Make sure you always have your Driver’s License or State I.D with you.

2. Look for Hoophouses for Health signs around the farmers market. Farmers will be able to tell you what things you can buy with your card.

3. Use the Market Card just like a credit or debit card.

4. Check the balance of your Market Card, by asking any participating farmer or the group who gave you the card.

5. Take a Market Flyer so you can remember the days and times of the farmers market.
