<sup>1</sup>These products are Generally Recognized As Safe (GRAS) and do not require licensing on their own to sell. When added to a food product, the final product may require licensing.

<sup>2</sup>It is currently unlawful in Michigan to manufacture and sell pet treats and/or pet food with CBD added.

<sup>3</sup>Registered growers may only legally sell to other registered growers. The public cannot lawfully purchase viable seeds, starts, or plants. Viable means the seed is intended to grow a plant.

## COMMON TERMS:

**Cannabis:** The plant used to grow both hemp and marijuana and from which THC and CBD products can be processed.

**Hemp:** Cannabis with a THC level not more than 0.3% is classed as industrial hemp and is legal under both the state and federal law. Full legal definition can be found in MCL 333.7106(2).

**Marijuana:** Cannabis with a THC level greater than 0.3% is classed as marijuana, which is legal for adult use (21 years of age) in Michigan but remains illegal federally. Full legal definition can be found in MCL 333.7106(4).

**CBD (Cannabidiol):** A non-intoxicating compound found in hemp and marijuana. CBD is legal for topical use provided the THC level is at or below 0.3% but cannot legally be added to any food products.

**THC (Delta-9-Tetrahydrocannabinol):** The compound in cannabis that is responsible for the intoxicating effects of marijuana. Products containing THC levels greater than 0.3% are regulated as marijuana.
